NUMB. 2186.

The PENNSYLVANIA GAZETTE.

Containing the Freshest Advices, Foreign and Domestic.

By the PACKET, arrived at New-York, from Falmouth; Captain LOXLEY, from London; and Captain CRAWFORD, from Liverpool and Londonderry, both arrived here, we have the following ADVICES, viz.

DANTZICK, August 11.

OUR Magistrate has published an Edict, by which all the Prussian Natives are to be put into the Hands of 50 Hussars of that Nation, who are at a League from hence to receive them; in Consequence of which it is ordered, that an exact Search shall be made for them. The Lamentations of the said Natives, especially those who have been settled here for some Time, and who were in the Way of making a Fortune, is not to be conceived; some have taken their Flight, and others would have done the same, had it been in their Power.

Paris, August 24. On the 20th Instant the Deputation from the Parliament of Britany were admitted to the King's Presence at Compeigne, when his Majesty spoke to them in the following Terms: "The Letters Patent which I sent to you ought to have imposed a most absolute Silence upon you, with Respect to the Affair of the six Magistrates; your not observing of which is a flagrant Breach of your Duty, as thereby you have endeavoured to stir up the same violent Proceedings in other Parliaments, and therefore is an Affair of too serious a Nature to go unpunished. I shall content myself with punishing two of your Members, which I hope will be sufficient to keep the rest to their Duty. Retire immediately, and return to Rennes, without passing through Paris."

August 27. Letters from Lisbon advise, that the Account of a great Execution there, which was published some Time ago, was without Foundation, and the Report of it is supposed to have arisen from the Discovery of a Conspiracy against the King's Life; and Count d'Oeiras, the Prime Minister's having secretly dispatched some of the principal Persons concerned in it. It is likewise thought that the Discontent which still prevails in that Kingdom, is occasioned by the great Severity of that Prime Minister, who, upon the least Suspicion, either with regard to his most Faithful Majesty, or himself, makes no Ceremony of dispatching those he suspects, inasmuch that he is universally hated, and hardly dares to stir out of Doors without a Guard.

Toulon, Aug. 7. We are at Work here, with great Assiduity, on the Construction of two new Ships of the Line, the Destin of 74, and the Caton of 64, besides two Frigates, the Eclair and the Sardine, of 20 Guns each, and also in refitting all the other Ships and Frigates in this Port. In order to accelerate this Work, vast Numbers of Ship-carpenters have Orders to come from other Ports, 200 of whom are already arrived.

The 30th ult. four Transport Ships failed from hence for Corsica, having on board four Companies of Cannoniers, one of Miners, and another of Workmen. These 6 Companies, draughted from the royal Corps of Artillery, are to be employed at Bastia, Calvi, and Ajaccio, in repairing and augmenting the Fortifications of those Places.

Paris, Sept. 3. The Parliament has issued an Arret, by which all Persons who trade in Corn, are to enter their Name and Place of Abode, with an Officer appointed for that Purpose, together with the Place where they have their Magazines, and an Account of the Corn which they buy and sell. The same Arret obliges all Persons, who trade in Corn, to bring a sufficient Quantity to stock the Market, and, in case of Necessity, proper Officers are authorized to oblige them so to do; all Persons are strictly prohibited to monopolize Corn, and to enhance the Price of it; and the Farmers, Husbandmen, &c. are forbidden, under very severe Penalties, to sell any Corn standing, or before they get it into their Granaries; all Bargains of this Kind being declared null and void.

Lemberg, Aug. 19. We have this Moment received the important News, that the Chan of the Tartars, who is still at the Head of 60,000 Men, finding himself so blocked up, and closely pressed by the Russians, hath written to General Count de Romanzoff, with an Offer that he will no longer bear Arms against the Russians during the present War, if he will permit him to retire freely with all his Men; the Russian General replied, that he could not grant his Demand, except on Condition, that he will render Homage to her Majesty the Empress of all the Russias.

From the Frontiers of Poland, Aug. 24. Among the Booty, which the Russians took from the Grand Vizir on the 1st of August, besides Effects to the Value of 200,000 Rubles, they found two Coffers filled with small Aigrettes of Feathers, which the Grand Vizir intended to have distributed among the most valiant of his People after the Victory; these the Russian Officers now do themselves the Honour to wear.

Petersbourg, Aug. 10. N. S. The Empress has created General Romanzoff a Knight of St. George, of the First Class; and he is as yet the only one. General Bawr, and three or four more, are made Knights of the Second, and it is said a great many others are received into the two lower Classes.

Warsaw, Aug. 18. A Report prevails here, that the Venetians have resolved not only to make themselves Masters of the Morea, but also of all the Isles formerly belonging to them, at present possessed by the Turks.

Copenhagen, Aug. 28. Count Moltice, Captain Lieutenant in the Marine, and Adjutant General to the King, is arrived here, after a Journey of 9 Days, from Toulon to Altona. This Officer, who was dispatched Express by Commodore Kaas, has brought Word, that the Danish Squadron, after having been driven from before Algiers by a Storm, had again returned thither; but that they were again obliged to leave it, not only on Account of the Sickness on board their Squadron, but for Want of warlike Stores, and because the Bomb Vessels, which were too small, had greatly suffered; but that Commodore Kaas had left two Frigates to cruise before that Port. This Officer has farther asked a Reinforcement of two Ships of War, and a Bomb Vessel, which has been granted, and we are embarking a great Quantity of Cannon and Stores on the Holm for that Purpose.

Italy, Aug. 22. Since the total Destruction of the Turkish Squadron, the Russians have taken Possession of the Island of Scio; and, according to all Appearance, the Islands at the Entrance of the Dardanelles, only wait for the Arrival of the Russian Fleet, to shake off the Ottoman Yoke. The Russians have taken 12 Ragusan, and 2 French Ships, laden with Provisions and Stores for the Turkish Fleet. Letters from the Morea advise, that the Turks and Greeks massacre each other continually.

Petersbourg, Aug. 17. We have received an Account from the two Armies under General Panin, on the other Side the Niefter, that the Trenches before Bender were opened on the 30th ult. by Lieut. Gen. Rennenkamp's Division; that General commanded in Person, besides whom Lieut. Gen. Elmt, Major Gen. Lobel, the Engineer Major Gen. Gerbel, and Major Gen. Wulff, of the Artillery, were there. In the Night the appointed Trenches were

prepared, and 25 Pieces of heavy Cannon brought upon two Batteries; but the commanding General only fired upon those Turks who were roaming about in such Places as might damage the Entrenchments, as his Intention was to begin the Cannonading and Bombarding on all Sides of the Town at once. The 31st, the Enemy set Fire to their Suburbs, after which they doubled their Cannonading. Our General examined the Entrenchments himself, and 2500 Men were employed at them that Day: All the Batteries and Mortars were prepared in the Entrenchments, on the other Side the Niefter: About 400 Fathoms of the Fortification being finished, the General gave Orders to begin the Cannonading and Bombarding every where at once in his Presence, which was instantly done with great Violence. The Enemy answered the same very heavily, and although the Town has been twice on Fire, they have extinguished it both Times, and hold it out very bravely.

Canterbury, Sept. 8. We learn from Deal, that the Duke of Newcastle, Thomlinson, from Piscataqua, with Mafts for Portsmouth, is lost off Scilly, and all the Crew drowned.

LONDON, September 4.

It is reported, that when Commodore Proby was very lately at Cadix, a Native of Ireland, a Protestant, who having been fraudulently illfitted, was then a Soldier in the Spanish Service, at the Risk of his Life, ventured out of the City, and leaping into the Commodore's Boat, wrapped himself in the Colours, claiming their Protection as a Subject of Great-Britain; that in Violation of the Sacredness of our Flag, the Spanish Soldiers forced him from the Boat; and to give Proof how they are taught to respect an Englishman, they took the Colours with him, which with an unparalleled Insolence they tore in Pieces, and insultingly trampled them under their Feet. It is said the Commodore has preferred a Complaint to the Ministry, who (Report says, we hope untruly) have hitherto treated it with Disregard.

They write from Oran, a Fortrefs on the Coast of Barbary, belonging to the Spaniards, that one of their Powder Magazines was lately set on Fire there by Lightning, by the blowing up of which 70 Persons perished.

The last Letters from India confirm the present Prospect of Peace and Security in the Countries, where the English Company has any Concern. Somero and Sujah Dowla, discouraged by the peremptory Refusal of Heider Ally to join with them, and his Declaration of a full Intention to support the English, have wholly laid aside the Design they were meditating against them.

We hear, at a late Meeting of the American Merchants, it was agreed to give unlimited Credit to such of the Colonies, as should follow the Example of New-York, by a general Importation.

It is talked, that the Rev. Sir Robert Pynsent, Bart. intends to commence a Suit in Chancery against a certain popular E--l, next Term, for the Recovery of the Pynsent Estate; which, it is said, he would have done long since, but that he waited the Issue of a Suit that was determined last Term against the said E--l; upon which, it seems, the Merits of Sir Robert's Cause in a great Measure depends.

A Letter from Dantzick, dated August 11, says, "Last Sunday we were to have paid the new Contribution of three Ducats for each Farm, which amounted to 600 Ducats; but our Magistrates having received Advice from the Court of Berlin, that it was not necessary to make the Payment at present, the Contribution did not take Place."

The Lords H---x, E---nt, and H---d, are consulted, it is said, on almost every Occasion, by those in Power.

Two of the above great Men, together with Lords N---th and M---nd, and some of inferior Rank, compose the Cabinet Council.

Extract of a Letter from Chatbam, August 31.

"Last Wednesday Morning several Cartridges of Powder were found near the Hemp-house in this Yard, which makes us apprehend that they were put there with a Design to set the Yard on Fire; however every possible Care is taken to prevent it."

Letters from Marseilles and Toulon advise, that a prodigious Number of Workmen are now employed in the Dock-yards there in forwarding the Men of War upon the Stocks.

It has been remarked, that the Report of Mr. Sheriff Townsend having been favoured by Government with a lucrative Contract, has been very injurious to the Character of that Gentleman; whereas, on the contrary, it is said, the Government insist on his fulfilling a Contract made by his Father (he having bound his Heirs to the Performance of it) which is so disadvantageous, that Mr. Townsend will be 20 per Cent. out of Pocket by performing it. Therefore the insisting on his fulfilling it, is meant rather as a Punishment for his Patriotism, than as a Bribe to induce him to desert the Cause of Liberty.

Sept. 8. The amiable Consort of a Great Personage is so great an Admirer of Milton's Paradise Lost, that, we are told, she has it all by Heart.

A young Man of high Rank has Orders from a Great Personage, to take every Opportunity of doing Good upon public unfortunate Occasions, in order to wipe away the Odium of a late Transaction, with a Promise of a Reimbursement; and to this Account must be placed the Donation to the unemployed Labourers in the Dock-yard at Portsmouth, after the late Conflagration.

The Friends of the Ministry give out, that Lord N. has received the most ample Assurances, that not one Word of a Remonstrance will be mentioned at the York Meeting on the 25th Instant.

On the other Hand, several disinterested Gentlemen assure us, that the York Meeting will terminate agreeable to the Wishes of the Nation; it being supported by the strong and extensive Influence of the Marquis of R.

They write from Venice, that fresh Overtures have been made to the Senate, to take Part with the Grand Signor against the Russians; but they have absolutely refused them.

It is reported Lord N---h has asserted, that he could be able, and would undertake, to pay off ten Millions of the national Debt by the Year 1774, provided he is permitted to hold a considerable Direction in the Department of Finance during that Period; and further also lay down the Mode of triennially discharging ten Millions, in all Times of Peace, till the whole is satisfied and paid off; when the said Savings might, in future, be appropriated to other great national Purposes.

It is said that Col L-----l has resigned the Post of Adjutant-General to the Army in Ireland, to which he was lately appointed. The following Reason is assigned for this Resignation; upwards of 150 Officers have sent over Letters to the Secretary of State, desiring Leave to resign their Commissions, and for no other Reason, but because Mr. L-----l was their Adjutant. The Administration, foreseeing the disagreeable Consequences that might probably ensue, from continuing Mr. L-----l in his Office, prudently demanded his Resignation.

The late Advices from Spain are far from being of that alarming Nature which was at first apprehended; they speak, indeed, of some martial Preparations in the West-Indies, but such as are not to be immediately dreaded.

Constantinople, Aug. 3. If we credit Reports, all our Fleet, one Ship excepted, has either been taken or destroyed by the Russians. But as the Russians have suffered greatly, we think they will not be able to force the Straights of the Dardanelles, which is well provided with Batteries, that have lately been put in a good State of Defence. Besides which, five or six other Ships, which are here, and some more which are getting ready, are to be sent to defend the Strait. What we are most in Fear of is Want of Provisions, several Provision Vessels having fallen into the Hands of the Russians.

Admiral Elphinstone has blocked up the Dardanelles, and Accounts from Corfu mention, that some of his Ships have safely passed those Castles, in Pursuit of the Turks. Constantinople is hereby in a very dangerous Situation, all Communication and Importation of Provision, &c. being cut off from that populous City on this Side, besides which, another Russian Fleet on the Black Sea will cut off all Communication with Constantinople on that Side. The Russian Vessels raise great Contributions from the Islands in the Archipelago. Metelino alone is taxed at 150,000 Piastras.

Warsaw, Aug. 28. The Tartars of Belgorod and Sedilaukski, whose Number is said to amount to 100,000, have solicited Count Panin's Permission to retire, promising not to act any more against Russia during the present War; and that General has given them nearly the same Answer as Count Romanzow did the Khan of Crimea.

Sept. 1. By Letters from some Volunteers in General Romanzow's Army we have Advice, that there is such a Diffusion in the Grand Vifir's Army; that those Troops have not only made Use of Small Arms, but even of Artillery against each other.

General Romanzow wrote the following Account to the Russian Ambassador here:—"The small Remains of the Turkish Army is easily to be seen from this Side the Danube; it is at present at Iffacia. The Deserters from thence mention, that the Vifir is there at present himself, that he has put many Bathaws in Irons, and Yesterday beheaded four of them; in a Word, the Turkish Troops, who escaped from us, and crossed the Danube (in doing which many were drowned) have dispersed themselves in different Parts, and an uncommon and deadly Fear reigns among them all. Among the Prisoners at Iffaiow are 20 of the principal Turkish Officers."

Constantinople, Aug. 13. The 12th ult. the Porte received the melancholy News of the total Destruction of their Fleet. The Engagement began the 5th at Ten in the Morning, and lasted till the 7th. The bad Disposition of our Fleet was owing to our Captain Pacha, who neglected the Advice of Zeffir Bey and Hassan Bey. The Captain Pacha has been since deposed, and Zeffir Bey named Great Admiral in his Stead. Meldavangi Pacha has received Orders to defend the Strait of the Dardanelles, where, beside strong Garrisons in the Four Castles, there are in that Canal Four Ships of War, and a great Number of Transport Vessels chained together, and furnished with Cannon, to defend that Place to the utmost.

Petersburg, Aug. 11. The General Romanzow only makes the Loss of the Turks 20,000 Men. All the principal Officers who are taken Prisoners assure us, that it is not less than 40,000; and that the Grand Vifir had only 15,000 Men to repulse the Danube with him, leaving in the Possession of the Conquerors all the Baggage belonging to the Army, the Military Chest, and upwards of 200 Pieces of Cannon. All the different Hordes of Tartars are actually in Negotiation with our Generals, to submit themselves to the Emperors.

The Siege of Bender is carrying on with great Vigour. The Garrison makes a resolute Defence, and seems determined to hold out to the last Extremity.

So far are the Prussians from any Thoughts of obstructing the Russian Arms, that a Treaty of Friendship, now in being, is concluding between them and the Czarina.

Extract of a Letter from Paris, September 5.

"Some Politicians here are of Opinion, that notwithstanding the Pains which the Minister of this Court, and that of Great-Britain, seem to take, in order to maintain the Peace between the two Nations, Affairs are nevertheless in such a Situation, as it will be impossible to regulate them to mutual Satisfaction, without coming to an open Rupture."

Sept. 15. The Acquiescence of the People of New-York will so far abridge the American Business, that the Parliament, which stood prorogued to November, will be further prorogued till the Beginning of January.

"In the Relations of the Engagements of the 18th of July, and of the 1st of August, General Romanzow did not fail to do Justice to Prince William of Brunswick, whose gallant Behaviour appeared on those Days, he being always the first in the Fire: He likewise greatly commends the Prussian Volunteers in general, who went to the Attack like Lions."

"Advice has likewise been received at Lemberg, that General Tottleben had gained a complete Victory over the Turks, commanded by four Bakhaws in Armenia, the Consequence of which was the taking of Erzerum. The Turks lost upon this Occasion 6000 Men, 15 Pieces of Cannon, several Staffs of Command, Horses Tails, and a great Number of Tents."

Extract of a Letter from Gibraltar, to a Merchant in London, dated August 21.

"Yesterday we received Advice, by a Vessel which put in here to deliver some Dispatches from London, that a few Days before, the fell in with a Spanish Fleet, consisting of six Ships of the Line, and as many Frigates, besides Bomb-ketches and Store-ships, steering towards the Mediterranean: She expected to be brought to, and examined, but they lay by, and continued till it was dark, when the saw no more of them. This Account did not at all alarm us, as our Garrison is very healthy, well supplied with Provisions, and the Fortifications repaired, and in good Order."

"We have also received Advice, that the Algerines have intreated the Danes to grant them a Truce for six Months, which they have rejected with Scorn: However, before the Danes make a fresh Attack, they will be joined by several Men of War, and Bomb-ships, which are soon expected; and it is not in the least doubted but they will soon bring these Barbarians to Reason. We have also learned, that we shall soon have a Fleet of Men of War from England in this Part of the World, to observe the Motions of the Spaniards."

Extract of a Letter from Portsmouth, September 13.

"His Majesty's Ships Ajax, Centaur, Bellona, and St. Antonio, Guardships in our Harbour, are ordered to make up their full Complement of Men, and proceed to Sea directly: We hear several more are to be got ready here out of Hand."

"We likewise hear that the same Number of Ships of the Line are to sail directly from Chatham and Plymouth."

"The above Ships are to take in three Months Provisions."

"We do not know where the above-mentioned Ships are destined; but it is supposed they will cruise some Time in the Channel."

The Place where the Khan of the Tartars is surrounded by the Russian Forces, we are told, is near a Morass, where he was blocked up by a Body of Troops, that were sent in Pursuit of him immediately after the Battle of the first of August. General Romanzow's Behaviour in the same Action was remarkably heroic; for putting himself at the Head of a square Battalion of Russians, he repulsed the Janissaries so vigorously, that after defending themselves bravely for some Time, they threw down their Arms, and, contrary to their usual Custom, begged for Quarter. The two Parties fought at no less than ten Paces Distance, and 1500 Janissaries were killed at the first Fire.

The following Story has been circulated as the Subject of a late Conversation: Some Days ago a Letter appeared in a Morning Paper (and was afterwards copied into other Prints) giving a ludicrous Character of one of the Heads of the House of Bourbon, upon which not only the Spanish Ambassador, but all the Ambassadors belonging to that Family, joined in a Memorial, which was delivered to Lord W-----, insinuating upon condign Punishment being inflicted upon the Printer; and even threatening us as a Nation, if such Satisfaction was refused. To this the Secretary of State answered, that he was surprised the Ambassadors could be so ignorant of the Constitution of this Country as not to know, that it was out of the Power of Government to punish a Printer in the Way their Excellencies desired; that he was sorry for the Affront offered their Sovereign, but that the English News-papers took Liberties with their own King, and a foreign Prince had no Right to be angry, if he was now and then treated with the same Freedom, since the Laws of the Land were equally the Shelter of the Offenders in both Cases. As to the Threats, he smiled at them; but added, that if what the Printers had done could be construed a Libel, the Attorney-General should be spoken to, a Prosecution commenced, and such Damages adjudged, as a Jury of Englishmen thought equitable.

A Letter from an English Merchant, dated Smyrna, July 13, says, "On the 8th, the Sailors who arrived here from on board the Turkish Fleet, stabbed and otherwise destroyed about 150 Greeks."

Two Conferences were held Yesterday between the Lords N-----, W-----, and R-----, at different Times; one previous to their setting out for Richmond, and the other at Night. Bishop Lloyd, many Years since, foretold from the Revelations the Destruction of the Turkish Empire: Whiston, who was laughed at by the Wits for it, actually fixed the final Ruin of the Ottomans to the present Period, or very near it.

"Orders have been in our Dock-yard three or four Days for the following Guardships to get ready for Channel Service as fast as possible, in Consequence of which there are Bills posted all over this Place, and round the Country, for the Encouragement of Seamen, viz. est Diligence, to get this Fleet and several others fit for the Sea; which will be soon accomplished."

"The Albion, and Prince of Wales, two fine new 74 Gun Ships, are ordered to be got ready as Guardships."

"Our Ships at Spithead bring to every Vessel that comes from Sea, in order to go down Stokes-Bay, as many have, with a Pretence to go to Southampton, &c. but their real Business being to view Spithead, and from their Top-mast the Ships in Harbour, and fall out at the Needles directly. What are these? Spies to be sure."

"We had a Spanish Merchantman last Week in our Harbour: What her Business was here, her Captain best knows."

"His Majesty's Ship Britannia, 120 Guns, has had her Masts fixed some Time, as have a great many of the 64 and 74 Gun Ships."

"We hear that a 90 Gun Ship is to accompany the above Fleet, but we know not as yet her Name."

"His Majesty's Ship Seaford is in Blockhouse-hole, ready for Sea."

"At Spithead three Ships of War."

Sept. 19. Last Night a great Number of Prefs-warrants were issued out, in Consequence of which upwards of 1500 Men were pressed below Bridge, from all the Ships, Vessels and Boats, they could meet with. The Prefs-gangs consist of 27 Long-boats, each carrying 7 Men, armed with Bludgeons.

The Rumour of a War has caused a great Stagnation in the Coal Trade of London; the Ships are very slack in coming to the Thames for fear of a Prefs, and those who have a Stock of Coals, are afraid to part with them.

Orders were received at the King's Brew-house at Wevill, near Gosport, to begin last Monday, and brew every Day, Sunday included. Four Ovens more than have been used for some Time, are likewise ordered to be opened at the King's Bakehouse, and the Bakers to work extra, for baking of Biscuit for the Ships ordered for Sea.

A Letter is received from the Carysfort Frigate at Madeira, which mentions a Skirmish their Boat's Crew had with another belonging to a Portuguese Vessel, wherein three of the Carysfort's People were killed, and several wounded.

Letters from Paris last Week mention, that the Harvest in that Kingdom is over, and the Crop plentiful, yet Bread rises, and all Provisions are immoderately dear.

The Astronomers are desired to give some Attention to the present Spots on the Sun, and particularly to remark at distant Places the Times of their Setting, that Comparisons may be made.

Lord H-----'s Return from Ireland, it is said, was commanded a few Days ago by Express.

It is said that the Portuguese Minister has offered all reasonable Satisfaction for the late Insults offered to the British Merchants at Lisbon.

Postscript of a Letter from Paris, Sept. 12.

"A Report is privately circulated here, which daily gains Credit, viz. that this Court is now fitting out, with all Expedition, a formidable Squadron, to follow the Russians to the Dardanelles, and to attack them. The ostensible Foundation of this Quarrel will be, the Interruption of the French Trade in the Levant by the Russian Fleet."

Several Persons were pressed Yesterday in Newgate-street.

As soon as the Prefs Warrants were issued out, the French and Spanish Ambassadors sent Dispatches with the Intelligence to their respective Courts.

Extract of a Letter from Nonhadt, Sept. 4.

"Yesterday Noon the King of Prussia arrived here, and alighted from his Coach before he came to the Head Quarters, where his Imperial Majesty waited to receive him. The inhabitants of this City were extremely affected at the Meeting of these two great Monarchs, inasmuch that when they went together to the Quarters allotted for the King of Prussia, most of the People kneeled down as they passed along. In the Evening there was an Opera. The grand Manœuvres will begin this Day."

An Account from Venice, dated Aug. 29, brought by Yesterday's Mail, mentions, Letters having been received there from Constantinople, advising, that there has been a Revolt in the last mentioned City, in which the Ambassador from France, after receiving many Insults, had been massacred, with all his Retinue; that the other foreign Ministers escaped only by Flight; and that the Porte had given the Venetian Ambassador a Guard of 1000 Janissaries to protect him.

Another Account says, that above 300 Christians had been killed by the Populace; that the British Minister escaped into the Country, and the Dutch Envoy left the City in a Sailor's Habit.

The exact Number of the Turkish Fleet, destroyed by the Russians in the late decisive Engagement off Scio, is as follows, viz. Six Ships from 80 to 90 Guns. Seven from 60 to 70 Guns. Four Frigates, and a great Number of Chebecks, Gallies, &c.

Several private Accounts from France assure us, that the Ministry are apprehensive of an actual Rebellion, in various Parts of that Kingdom; and all Accounts agree, that Louis, so long denominated The Beloved, is now become the general Execution of his Subjects, and that more publicly than can be well imagined.

On Tuesday Mr. Shadwell, a young Gentleman belonging to Lord Rochford's Office, arrived in Town from Paris. He was first sent with Dispatches to Mr. Murray, his Majesty's Ambassador at Constantinople, and afterwards executed Commissions at several other Places.

Shocked at the wanton, inhuman Massacre made by the Military in St. George's Fields, and more shocked, if possible, at the deaf Ear that has been turned upon Mr. Allen's parental, unregarded Petition to the King, a certain patriotic Member of the Lower House has determined to move next Session of Parliament, for a Clause to be inserted in the Mutiny Bill, making it Death for any Soldier to fire upon his Majesty's Subjects, under any Pretence whatever, unless it be in Times of open Rebellion, or actual Invasion.

A Fleet of Colliers are arrived in Yarmouth Roads, the Crews of which, hearing that Prefs Warrants were to be issued out in a few Days, left their Ships, and went on Shore, and have refused to navigate the Ships to London, till Protections can be procured for them from the Admiralty.

Yesterday the Prefs for Seamen continued very hot on the Thames, when all the Ships that came in were stripped of their Hands, except the Captains, Mates, and Pilots. Some Men belonging to the Prefs Gangs were put on board the Vessels to bring them to their Moorings. In several Parts about London, Numbers were pressed.

On Wednesday last a Prefs Gang paid a Visit to the Sessions House Yard in the Old Bailey, and very politely took under their Protection, all such as were cleared by Proclamation.

We are assured, from very good Authority, the Parliament is to meet on Tuesday, the 13th Day of November next.

It is apprehended, that the Blow is struck before this Time at Falkland Island.

We are assured from the best Authority, that there is not the least Truth in the Report through Holland of an Insurrection at Constantinople, or that any of the Ambassadors there have been put to Death, or even molested.

The French Trade in the Levant, which in all Probability will soon be in our Hands, is one of the principal Branches of their Commerce.

According to the Returns at the Admiralty, no more than 902 Sailors were impressed the first Night and Day Pref's Warrants were issued, upwards of 100 of whom made their Escape from on board the Vessel, which they run ashore at Gray's.

Several Houses of Rendezvous are opened at Hull, Shields and Sunderland, where the Pref's is carrying on very hot. Tenders are at all the above Places.

We hear that the present Pref's Warrants are confined to a limited Number of Days.

Besides the Ships before ordered for Service, the following are put into Commission: At Woolwich, the Prudent, of 64 Guns. At Chatham, the Barfleur, of 90 Guns; Resolution, 74; Egmont, 74; Buckingham, 70. At Portsmouth, the Namure, of 90 Guns; Elizabeth, 74; Terrible, 74; Trident, 74; Boyne, 74. SAVANNAH, in GEORGIA, October 17.

A Sloop from New-York, Mitchell Master, bound to St. Augustine, with a Load of Bricks, is lost upon the Island of St. Simon, the People saved.

BOSTON, November 5.

Extract of a Letter from London, dated September 6, 1770.

"Mr. Hutchinson is Governor. The Province, I am sure, ought to be very thankful for the having one born among themselves for their Governor—one who so well knows their Constitution, and who has all his Life-time shown himself a Friend to it. This Government could have done nothing that ought to be more acceptable to the Colony, or that will put them more evidently in the Wrong, if they do not agree with him. After that, it will be manifest, that their Quarrel is not against any particular Person, but against the having any Governor at all."

Extract of another Letter from London, of the same Date.

"We begin now, I think, to be a little more settled, and if no new Accident happens, I do not doubt but that the Ministry will set out next Session with a much greater Majority, and that will soon bring us into better Order."

In our last we mentioned that at the Superior Court held here, on Wednesday, began the Trial of Capt. Thomas Preston, of the 29th Regiment, who was indicted by the Grand Jury, in several Indictments, for the Murder of Mr. Gray, Maverick, and others, on the 5th of March last. The Examination of Evidences and the Pleas were continued from Wednesday, each Day (Sunday excepted) until Monday, when the Honourable Judges summed up the Evidences, and gave the Charges to the Jury. The Jury went out about five o'Clock, and it is said agreed by eight. The Court was adjourned till the next Morning at eight o'Clock, at which Time they brought in their Verdict, "NOT GUILTY," and Captain Preston was dismissed.

NEWPORT, November 22.

This Moment we are informed, that all the Prisoners confined in South Kingtown Jail, for counterfeiting Money, have made their Escape, except Wilson, who was sick.

NEW-YORK, November 12.

On Monday Evening arrived the Sloop General Gage, Capt. Turel, from Coracao, who providentially was the Means of preserving the Lives of four Men whom he took from a Wreck at Sea, and has brought in with him, viz. Capt. John Tucker, his Mate, and two Negro Men, late belonging to the Schooner Mary Ann, of New-Providence, Mr. Thomas Dunscomb, Officer. This Schooner, loaded with Lumber, Pork, Butter, and Provision, on the 17th of October sailed from Norfolk, in Virginia, bound to New-Providence, and the next Day, Thursday, the 18th, met with a severe Gale of Wind, which continued till Saturday, the 20th, about Noon, and then abated; the Day before which, as the Schooner was struggling before it, she branched to, the Foremast was carried away, and the Vessel overboard. The People, 5 in Number, two white Men, and three blacks, remained on her till Sunday, the 21st, when the Weather being moderate, by the Means of the two Anchors, and a Purchase fixed to the Stump of the Foremast, they righted the Vessel—and making fast two Spars on the Bow-sprit, the only Part remaining above Water, they continued there five Days longer, till Thursday, the 26th, having nothing to eat but Part of a Keg of Butter, nor any Thing to drink but what they sucked from a Sail when it rained. When this Misfortune happened they were in about Lat. 37, 30, Long. 74, 11, and notwithstanding their being almost starved, and so long in such a dismal Situation, Hope never forsook them, and they were tolerably composed and cheerful, till the several Vessels passed them, some so near that they must needs have seen them, and yet intemperately left them to perish. At last, Thursday, the 26th, the Signal they made with their Sail was seen at about five Miles Distance by Capt. Turel, who bore down to them, took them all on board, extremely weak, and almost spent, and treated them with the greatest Care and Kindness, whereby they all recovered, except a Negro, belonging to Mrs. Dunscomb, of Coracao, who, the Night after they were taken on board, privately got to a Water Cask, where drinking, it is supposed, too freely, he grew seemingly distressed, and died the 3d Day after. Nothing could be got out of the Schooner, which lay wholly under Water.

Capt. Russell, from Dublin, spoke with the following Vessels on his Passage, viz. The 14th ultimo, in Lat. 41: 19, Long. 57: 49, with a Ship from Virginia for London, 16 Days out; the 17th, Lat. 39: 22, Long. 64, with a Sloop from Rhode Island for London; the 19th, Lat. 39: 11, Long. 67: 54, with a Frigate from Virginia for Boston; the 22d with two Sloops from Virginia for Glasgow, Lat. 37: 28, Long. 69: 30; the 26th, Lat. 37: 29, Long. 74: 30, with the Ship Liverpool, from Liverpool for Philadelphia; the 29th, Lat. 38: 56, Long. 69, with a Schooner from Dominica for Boston; and on the 2d inst. in Lat. 38: 58, with a Brig from Philadelphia for Lisbon, all well on board each Vessel, but Captain Russell could not learn the Master's Name, as it happened to blow very hard at the different Times he fell in with them.

Captain Prince, in the Brig Prince and Liberty, from Cayenne, in Lat. 37, Long. 73, spoke with a Sloop from North-Carolina for Philadelphia, loaded with Cedar Spars.

PHILADELPHIA, November 15.

Saturday last the Ship Carolina, Captain Loxley, arrived here from London, which Place he left the 10th of September, but meeting with contrary Winds in coming down the Channel, he put into Torbay, and afterwards into Falmouth; while he lay there, he was informed there was a very hot Pref's in London; and he was boarded by a Lieutenant of a Man of War, who took one of his best Hands from him. Captain Loxley left Falmouth the 30th of September, in Company with Captain Chambers, for New-York. On the 30th ult. in Lat. 34: 20, Long. 68, he spoke a Brig, Captain Curtis, from New-London for Antigua, 4 Days out, all well.

In a Letter from New-York by the last Post it is said, "On Sunday the Britannia, Captain Miller, arrived here from London, last from Plymouth, where he put in, and had all his Hands pressed, which obliged him to send an Express to London, the Return of whom brought Letters to the 28th of September, with Advice, that a Spanish War was hourly expected. That the Spaniards

had taken Falkland Island from the English, and had a very large Fleet at Ferrol; which occasioned great Preparations; and that upon the Arrival of the next Mail or Express from Madrid, the Spanish Ambassador was to give his definitive Answer.

Captain Habborn, from Lisbon, informs, that Advice was received there from Cadix, that the English, who were settled on Falkland Island, were arrived there from that Place, being dispossessed by the Spaniards, which it was thought would occasion an immediate Rupture with them.

Friday last arrived here the Ship Hope, Captain John Robinson, from the Bay of Honduras, which he left the 25th of September, by whom we learn, that a Number of Spaniards having been detected in enticing the Negroes to run away, were seized, by Way of Reprisal, and put to Work on board an English Vessel. Captain Robinson left at the Bay, the Ship Hope, James Robinson; and Captain Eve, in a Brig, both loading for this Port. Captain Lanegan, in a Brig, and Captain Bryant, in a Ship, both for this Port, failed two Weeks before Captain Robinson, but Captain Lanegan was spoke with, about the 18th of September, off Bonaeo, going to the Mosquito Shore for Provisions, by a Brig belonging to New-York, who arrived at the Bay from Madeira. Captain Wright, in a Brig for Rhode-Island, left the Bay in Company with Captain Robinson, but on the 15th of October she ran ashore on the Collieradoes, where Captain Robinson sent his Boat to her, and she got off, after lying there 4 or 5 Hours, without much Damage. On his Passage, the 21st ult. in Lat. 24: 58, Long. 74, spoke two Sloops from Jamaica, one for Rhode-Island, the other for New-London, who said, the Ship then in Sight, was Captain Hubbs, from Jamaica for Philadelphia; and on the 5th inst. off our Capes, he spoke Captain Devereaux, in a Brig, from the Bay for New-York, all well.

A PERSON lately arrived from Europe, proposes to set up the WOOLLEN MANUFACTORY in this City, provided he can meet with proper Encouragement. All those who are desirous of being concerned, are requested to be speedy in their Applications, as it is proposed to have Work People, and every other necessary Article, for carrying on the same, as speedily as possible.
